

The Chrome River Suite

The Chrome River Suite is a fast, fluid, mobile web solution that is built on HTML 5 and Responsive Web Design (RWD) technology to offer global enterprise organizations the most modern travel and expense report management software. Chrome River brings together invoice processing, expense reporting, audit and analytics reporting, so that all non-payroll expenses can be efficiently managed in one place with a sleek new interface that works on any device, anytime, anywhere, that's endlessly configurable to fit the way any business works. Chrome River makes employees happy and lets business flow, which makes AP departments even happier.

Chrome River EXPENSE

Chrome River EXPENSE balances an intuitive easy-to-use interface for the user, with powerful business rules and reporting for the management team.

- Travel Agent and credit card integration (corporate, personal and P-card)
- Receipt image handling, storage and archival
- Powerful business rules engine (policy compliance and approval routing)
- Browser independent, mobile solution, offline or online capable

EXPENSE

Chrome River INVOICE

Chrome River INVOICE eliminates paper and automates invoice entry, coding and approval, while providing visibility and control over your spend.

- Invoice scanning and data extraction to reduce paper handling
- Intuitive, easy-to-use interface for invoice allocation and payment approval
- Data validation and automated expense policy compliance
- Integration with major financial systems

Chrome River
INVOICE

Chrome River AUDIT

Chrome River AUDIT provides a second review process to locate honest mistakes and Pre-payment and post-payment audit of expense report and invoices

- Customer defined sampling and audit review triggers
- Audit team resolution queue, including easy pre-defined responses

Chrome River
AUDIT

- Receipt and invoice validation, threaded dispute resolution and escalation

Chrome River ANALYTICS

Chrome River ANALYTICS was created on the belief that knowledge is power. Real-time insights and comprehensive analyses are valuable tools for managing any business.

- Standard reports that are configurable (sorts, rollups, charts, pivots)
- Ad-hoc reporting tools that allow for easy report creation and distribution
- Enforced security model to restrict access to sensitive data
- Save, e-mail and schedule reports for delivery to management

Chrome River
ANALYTICS

“ *Having one place to manage all of our expenses and invoices is awesome. I finally have visibility into all of our outstanding expenses, who is approving them, and how long it is taking them to get processed.*

A/P Manager,
2,800 Employees

Chrome River may be an American company, but they absolutely know about international finance. They are the first vendor that we've met that knew so much about VAT.

Financial Controller,
1,600 Employees

“ *Our firm saved over 1 million dollars in travel expenditures [last year] as a result of implementing the Chrome River Expense Pre-Approval process.*

Manager of Accounting Operations,
2,000 Employees
