

Litera Microsystems is the leading provider of software for drafting, proofreading, comparing, repairing and cleaning documents in the legal and life sciences industries worldwide. Our core products empower users to generate, review, and distribute high-quality content quickly and securely, from any device. Today, Litera Microsystems supports thousands of document-intensive organizations across the globe, helping them satisfy the complex demands of clients and regulators.

Lawyers spend up to 60% of their time drafting documents, and they are constantly under pressure to turn around high-quality work quickly.

Our goal is to help law firms and legal departments leverage technology throughout the drafting lifecycle to allow lawyers to focus on what matters.

If you'd like to learn more about the document lifecycle and how we can help your firm, please contact us.
