

Since launching just six years ago, TheFormTool, LLC has innovated its way into second place in terms of number of customers, and is now serving firms in more than 80 countries and 200 industries, of which U. S. legal

Our customers report saving an average of 71% of the time and 100% of the errors they otherwise experienced creating repetitive documents, comprising 48% of their total work.

services is largest.

The company is proud of its willingness to be revolutionary, its determination to listen to its customers, to learn from them and from its team's own experiences manually creating more than a million documents, developing artificial intelligence systems, and simplifying user interfaces to eliminate errors.

The proof is in its explosive growth curve, powered almost exclusively by word of mouth among customers varying in size from the smallest possible to the largest in the world.

Our prices are the most attractive in the world, the product value/ratio is unapproachable by others.

Our software, ranging from the free version to the brand new, futuristic Aurora Sunrise, is the easiest to use in the world. This reduces training time, expands usage, and dramatically increases productivity.

Ease is coupled with more than 100 extraordinary features and built-in functions: conditions, syntax, appearance, gender and single/plural controls, lists, math, calendar offsets, metadata scrubbing; in our higher-level programs: create multiple simultaneous documents, draw on external text and graphics, access to SQL, Access, Excel, and Outlook Contacts; remote data entry and secure storage.

Our software avoids the "one size fits all" approach. Customers outfit only as many team members with software as

TheFormTool's products and systems are leaders in the four attributes professionals most want from investments in modern technology.

In order they are:

**Ease of use
Power**

**Flexibility
High value ratio**

makes sense, whether one, an entire department, several offices, or the entire firm.
