“The Traveling Coaches team did a great job for us on our conversion to iManage Work 10. They bring great depth of experience, excellent insights into a very complex process and, most of all, terrific people. TODD CORHAM | CIO | Saul Ewing

“I would tell any law firm that they are being penny-wise and pound-foolish if they think they create a culture of security with in-house resources. I absolutely recommend Traveling Coaches.”

EDWARD BLOOMBERG | Partner | Phillips Lytle

“Traveling Coaches put together an army of trainers to assist with the switch to NetDocuments. That peace of mind was comforting when you're betting the farm on a project of this size.”
